**SUMMARY**

I have experienced in web development, I'm fresh graduate with a Bachelor's degree in Informatics Engineering from Sekolah Tinggi Teknologi Terpadu Nurul Fikri. Possessing a strong foundation in software development, data analysis, and systems design, complemented by hands-on experience through various academic projects and internships. Proficient in frontend programming languages such as HTML, CSS, React JS, and JavaScript, as well as backend programming languages including PHP, and Node JS. Known for strong problem-solving skills and a keen interest in emerging technologies. Eager to leverage technical expertise and academic knowledge to contribute to innovative projects and further develop professional skills in a dynamic work environment.

**PROJECT & EXPERIENCE**

---

**PT. Permodalan Nasional Madani**

Data Entry (Jul 2022 – Nov 2023)

My responsibilities involved inputting customer data into Excel, analyzing the consistency of data between customer document and Excel records, and meticulously verifying the completeness of customer data across 250 documents daily.

**Paklaring Certificate :** <https://bit.ly/3UNlpho>

**E-Commerce Immunie Store**

**Web Developer**

Developing responsive and intuitive web interfaces, ensuring an optimal user experience across all devices. Committed to refining design with attention to detail and ensuring user satisfaction as the top priority. Successfully increased the number of website visitors by 25% and increased the product purchase conversion rate by 10%.

**Tools :** HTML, CSS, Javascript, MySql, PHP, dan Laravel Framework

[https://github.com/abangaduhay/immunie\\_store](https://github.com/abangaduhay/immunie_store)

**Todo-List App**

Designed and developed a daily activity management application that enables users to record, organize, and track their daily task from start to completion, enhancing productivity and time efficiency.

**Tools:** HTML, CSS, dan Javascript
